

//code

Change made that is not mentioned in written code format-:

1. Added JavaScript to make navbar responsive.
2. Added Hamburger SVG for navbar.
3. Self-Choice of typography, font and color.

Note: Changes were made in the examination hall itself.

The screenshot shows a web browser with multiple tabs open. The active tab displays a survey form titled "Learn a new Language Today!" with the subtitle "Enhance your skills with the best learning tools available". Below this is a section titled "Language Learning Survey". The form includes fields for "Full Name" (with placeholder "Enter your name"), "Enter Email" (with placeholder "Enter your email"), "Preferred Language" (a dropdown menu currently showing "Spanish"), and "Learning Mode" (three radio buttons for "Online", "In-person", and "Self-study", with "Online" selected). There is also an "Additional Comments" section with a text area labeled "Your feedback...". The browser's address bar shows the URL "127.0.0.1:5500/index.html".

This screenshot is identical to the one above, but with the addition of a "Submit Survey" button at the bottom center of the form. The button is black with white text. The rest of the form and browser interface remain the same.
